Introduction

Outline

Motivation – why we do this

Outline

Materials

And methods as well

Outline

Results and Contribution

Summary

- ✓ We again mention our cool results
- We mention something important

- Outlook
    - ✗ Something you haven't solved.
    - Something else you haven't solved.
- ☞ We acknowledge some people for their help

Thank you for your attention!

For Further Reading I

A. Author.
Handbook of Everything.
Some Press, 1990.

S. Someone.
On this and that.
Journal of This and That, 2(1):50--100, 2000.

Enumerate, Itemize

There are three important points:

1. A first one,
2. a second one with a bunch of subpoints,
   - first subpoint. (Only shown from second slide on!).
   - second subpoint added on third slide.
   - third subpoint added on fourth slide.
3. and a third one.

Enumerate, Itemize

There are three important points:

Structure

We have some text and then use \structure it it.

Block

block of text that has a heading

> **block title**
> environment contents

> **block title, rounded block with shadow**
> environment contents

> **alertblock**
> environment contents

> **exampleblock**
> environment contents

Theorem, definition, proof

Theorem (Theorem -- Additional text)

There exists an infinite set.

Definition (Definition -- Additional text)

There exists an infinite set.

Proof -- Additional text.

This follows from the axiom of infinity.

Example (Natural Numbers)

The set of natural numbers is infinite.

Theorem, definition, proof

Theorem (Theorem -- Additional text)

There exists an infinite set.

Definition (Definition -- Additional text)

There exists an infinite set.

Proof -- Additional text.

This follows from the axiom of infinity.   □

Example (Natural Numbers)

The set of natural numbers is infinite.

Theorem, definition, proof

Theorem (Theorem -- Additional text)

There exists an infinite set.

Definition (Definition -- Additional text)

There exists an infinite set.

Proof -- Additional text.

This follows from the axiom of infinity. ☐

Example (Natural Numbers)

The set of natural numbers is infinite.

Framed and boxed text

Text without box
Text in beamercolorbox
